Gallery Assistant search underway
Also hiring Student Center Guides

Gateway to Science is hiring a Gallery Assistant to ensure proper staffing during the Gateway to Science hours of operation and maintain exhibits and other programming resources.

The Gallery Assistant we're looking for is detail-oriented, has excellent organizational skills, relates to children, can work independently and as a member of a team, is creative, and enjoys working with a wide variety of organizations and individuals. The Gallery Assistant’s responsibilities are varied which makes every day a little different and fun in its own way.

Review the Gallery Assistant job description and follow application procedures if you wish to be considered for the Gallery Assistant position.

Gateway to Science is also accepting applications for part-time Student Center Guides.

Center Guides are the face of Gateway to Science. They are the first representatives of the science center that our visitors meet and with whom they interact. It is important that a person in this job is welcoming, kind, fun and friendly. This position is for high school (minimum age of 16) and college students.

Please review the Student Center Guide job description, then complete and submit the employment application to be considered for employment at the Gateway to Science.
Preschool Discovery Hour
Popular program returns to Gateway to Science

Preschool Discovery Hour (PDH) will meet on the second Wednesday of the month from 10-10:45 am beginning May 12.

Preschool Discovery Hour is for children ages 3 years – Kindergarten and their parent or other favorite adult. The sessions are fun and hands-on.

Look for further details in the near future.

Association of Children's Museums
Gateway to Science joins as reciprocating member

Gateway to Science has become a member of the Association of Children's Museums (ACM). As a member of ACM’s Reciprocal Network, Gateway to Science members may be offered 50% off general admission for up to six (6) people at other ACM museums. To learn more about the ACM Reciprocal Network, visit findachildrensmuseum.org. If you are traveling and plan to visit an ACM museum, please be sure to contact the facility to get the complete policy.

Gateway to Science is also a member of the Association of Science & Technology Centers (ASTC) which also offers reciprocity for members. Visit astc.org/find-a-science-center for a list of ASTC members and reciprocity privileges.

Spring into Summer online auction
Thank you for your support

Thank you to everyone who donated to and bid in the Spring into Summer Online Auction. Your support powers the mission of Gateway to Science and ensures accessibility and affordability for all!
Save the date for **Einstein on Wine** Friday, November 19, 2021 in the Bavendick State Room, NECE Building, Bismarck State College.

**What will the new science center include?**

**Expanded gallery, education wing, maker space**

The new Gateway to Science building will house an expanded, interactive exhibit gallery, which will tell the story of innovation and opportunity in North Dakota with exhibits on energy, agriculture, health care, transportation, and more.

The current facility includes 2,500 square feet of exhibit area, no classrooms, limited capabilities, and aging infrastructure. The new science center will have 13,700 square feet of gallery space, or 5 1/2 times more room for exhibits. The facility will also feature an education wing including a laboratory classroom, indoor and outdoor learning areas, and a flexible maker space for all ages.

The science center’s emphasis is on hands-on exploration. Our exhibits, out-of-school time programs, and special events are designed to build on the instruction students receive in the classroom with interactive, creative experiences.

Learn more about the new building and what your family will experience in it at [gatewaytoscience.org/exhibit-design](http://gatewaytoscience.org/exhibit-design).
